
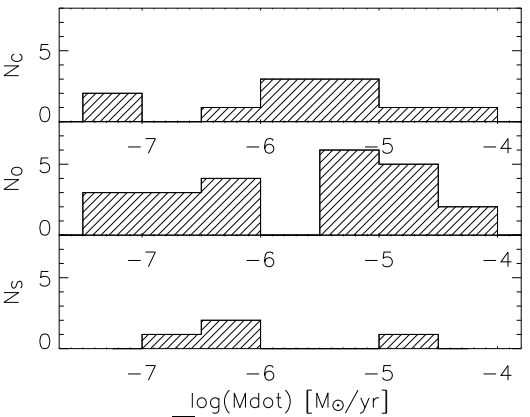
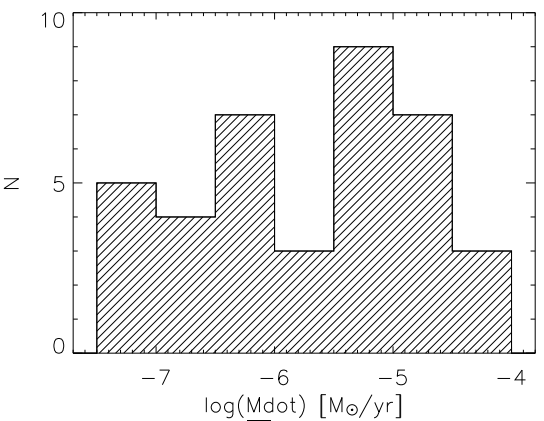
(a) Histogram of the $\dot{M}$-values for all AGB stars, grouped per pulsational type.



(b) Histogram of the $\dot{M}$-values for all AGB stars, grouped per chemistry type. $N_{\rm C}$ is the number of carbon-rich targets, $N_{\rm O}$ is the number of oxygen-rich targets, and $N_{\rm S}$ is the number of S-type targets.



(c) Histogram of the $\dot{M}$-values of all AGB stars.
